PROFILE

I am a Vocational High School (SMK) student specializing in Software Engineering, with 1.5 years of experience teaching IT fundamentals and programming within a school setting. I am accustomed to guiding students through coding logic step-by-step—an approach I also incorporated into a "Beginner Coding" guidebook project. Beyond the classroom, I have a practical portfolio in web and mobile application development using HTML, CSS, JavaScript, Laravel, and Flutter. I have a strong interest in education and am enthusiastic about bringing my technical skills and teaching experience to an educational program in Thailand.

SKILLS

- Web Development: HTML, CSS, JavaScript, PHP
- Frameworks & Libraries: Laravel, Tailwind CSS, Bootstrap, Flutter
- Tools & Database: Git, GitHub, MySQL, VS Code
- Teaching & Soft Skills: IT Curriculum Drafting, Technical Writing, Mentoring, Code Troubleshooting

PENDIDIKAN

- SD YPS SINGKOLE, 2016 - 2022
- SMP NEGERI 1 NUHA, 2022 - 2025
- IDN BS BOGOR, 2025 - Now

TEACHING EXPERIENCE

IT TEACHER IN ISLAMIC SCHOOL ADZKA 18 - 20 NOV 2025

- Collaborated in a team of four (with Fawwaz, Azzam, and Gani) to organize and teach a 3-day basic web development workshop.
- Taught foundational HTML and CSS concepts to help students understand how to build and style simple web pages.
- Divided teaching tasks and mentored students during hands-on coding sessions, ensuring everyone received direct help when they faced errors.

IT TEACHER IN SMA BUAH HATI 26 - 30 APR 2026

- Partnered with two co-instructors (Haidar and Aqil) to deliver a 5-day intensive web development training for high school students.
- Taught the fundamentals of web layouting using HTML, standard CSS, and modern styling with the Tailwind CSS framework.
- Guided students through hands-on practice, helping them understand how to build and style responsive web pages from scratch.

IT TEACHER IN SMA MAN 4 JAKSEL 29 July - 1 AGUST 2026

- Collaborated with four co-instructors (Alif, Gani, Faiq, and Aqil) to deliver a 3-day practical web development training program.
- Taught front-end fundamentals, covering HTML, CSS, JavaScript, and modern styling with Tailwind CSS.
- Mentored students directly during practice sessions, helping them troubleshoot errors and understand the logic behind their code.

PROJECT & CREATION

- | | |
|-------------------------------------|---|
| • Note Pad Website Full Stack | • Web Portofolio RPL B With OWN Server And Domain |
| • Pay Roll Website Full Stack | • Technology - website Front End |
| • E - Library Website Full Stack | • Zoro Dealer Website Front End |
| • E - Report Website Front End | • Portolio Website Front End |
| • E - Commerce Website Front End | |
| • Make A Book About Beginner Coding | |
| 100+ page | |

WORKSHOP EXPERIENCE

- GDG BOGOR, Build with AI Bogor 2026 Saturday, 25 Apr
- GDG JAKARTA DevFest, Sunday, 30 Nov 2025
- .ID Fest, Tuesday, 16 Sept 2025

LANGUAGES & TESTS

- Indonesian (Native)
- English (Intermediate / Active)
- IELTS Score: 5.5 (Reading Section)
